Prepared for Client Presentation & Internal Management

Version 2.4 | Updated September 2026

1. Executive Positioning & The Hybrid CA Model

Tracconsultant (tracconsultant.com) is an institutional-grade, Chartered Accountant-assisted tax and regulatory advisory portal. Traditional DIY tax apps use automated bots that frequently miscalculate complex capital gains, omit HRA/80D deductions, and trigger scrutiny notices. Tracconsultant combines modern fintech speed (30-second intake, encrypted vault) with manual double-verification by qualified Chartered Accountants adhering to ICAI standards and offering 100% Notice Protection.

2. End-to-End Customer Flow & Filing Wizard

Step 1: Elite Fintech Landing & Service Discovery

The client lands on the homepage with clean typography and an interactive console showing live tax savings (+Rs 34,800), live CA desk availability, and Form 16 drag-and-drop. Client can start filing in 1-click or chat directly on WhatsApp.

Step 2: 30-Second Fast-Track Filing Form (#file-now)

Clients choose their exact service (ITR-1 Salaried Rs 499, Stocks/Crypto Rs 1,999, Notice Rs 999, GST Rs 799/mo). They enter basic contact details (Name, WhatsApp Mobile, Email, PAN) and securely upload Form 16/AIS to the encrypted vault.

Step 3: Instant Tracconsultant Reference ID & WhatsApp Handshake

Upon submission, the client receives a unique Reference ID (e.g. TRAC-2026-4819). An automated WhatsApp confirmation message connects them to the Senior CA Panel within 15 minutes.

Step 4: Manual Senior CA Computation & Draft Approval

A qualified Chartered Accountant reconciles Form 16 against AIS, TIS, and Form 26AS, optimizes Old vs New regime, and prepares a draft calculation sheet. The draft is sent to the client on WhatsApp for review.

Step 5: Government Portal E-Filing & Guaranteed ITR-V Delivery

Once approved, the return is filed directly on the Income Tax Department portal. Official ITR-V acknowledgment is generated and archived in the client dossier with zero scrutiny anxiety.

3. Real-Time Application Tracking System (/track)

Clients can track their live status 24/7 by simply entering their 10-digit mobile number or Application ID (e.g. TRAC-2026-4819). The system displays masked privacy details (e.g. Rahul S***, 98*****10), estimated tax refund amount, assigned CA profile with direct WhatsApp button, and a real-time 5-stage milestone timeline updated dynamically from the Admin Portal.

4. Directory of All 20 Chartered Accountant Services

All services are fully documented with dedicated pages, dynamic SEO metadata, and admin CRM routing.

#	Service Name	Category	TAT	Price	Core Deliverable
1	ITR Filing	Tax	24-48h	Rs 999	Salaried, Traders, Crypto, NRIs, 100% Notice Defense

20	Business Loans Advisory	Finance	7-14 Days	1% Success	CC, OD, Term loans, lowest interest rate bank negotiation

5. Professional Compliance Tools Suite (/tools)

Tracconsultant includes 8 specialized financial and audit engines divided into 3 Free Tools and 5 Paid Professional Utilities.

A. Free Financial Calculators (Zero Login / Public Access)

1. HRA Exemption Calculator (/tools/hra-calculator)

Calculates maximum tax exemption under Section 10(13A). Metro (50%) vs Non-Metro (40%) side-by-side comparison with instant printable summary.

2. Advance Tax Calculator (/tools/advance-tax-calculator)

Estimates 4 quarterly advance tax installment deadlines (June, Sept, Dec, March) and guards against Section 234B & 234C interest penalties.

3. Old vs New Tax Regime Comparison (/tools/tax-calculator)

Updated for AY 2025-26 Budget. Side-by-side comparison with Rs 75,000 standard deduction, Section 87A rebate, and optimal regime recommendation.

B. Paid Professional Utilities (Auditor & CA Grade)

4. PDF Redact & Sensitive Data Masking (/tools/pdf-redactor) - Rs 199

DPDP Act 2023 compliant. Automatically masks PAN, first 8 digits of Aadhaar, bank account numbers, and signatures before sharing PDFs.

5. Trial Balance to Schedule III Balance Sheet & P&L (/tools/tb-to-balancesheet) - Rs 299

Automated grouping engine converting raw ledger Excel/CSV into Schedule III Balance Sheet and Profit & Loss statement with variance control.

6. GSTR-2A vs Books Reconciliation Engine (/tools/gstr2a-reconciliation) - Rs 299

4-way automated matching of purchase registers with GST 2A/2B portal records. Detects missing invoices, vendor defaults, and ITC leakage.

7. JSON to Tax Computation Sheet Formatter (/tools/json-to-computation) - Rs 199

Converts official Income Tax Department JSON utilities into clean, executive tax computation sheets formatted for clients and bank loan files.

8. GSTR-2A Cleaner & Supplier Summary (/tools/gstr2a-cleaner) - Rs 199

Consolidates messy multi-sheet GST downloads into single-sheet vendor-wise summaries showing GSTIN, trade name, and filing compliance.

6. Executive Admin Control Center Manual (/admin)

The Admin Portal (<https://tracconsultant.com/admin>) is a dedicated command center for managing CAs, operations, orders, and clients.

A. Authentication & Security Gate

Access at /admin requires PIN verification (default passcodes: admin123, trac2025, admin, tracconsultant). Sessions are protected by 256-Bit SSL with automatic token persistence.

B. Real-Time Executive KPI Metric Cards

Top summary cards display: Total Filings (active cases), Registered Clients (Google/Email accounts), Paid Tool Revenue (gross rupee sales), Service Inquiries (CRM leads), and Completed/Filed (ITR-V verified returns).

C. Tab 1: 20 Services Filings Management

Comprehensive table of all client submissions. Filter by service or status (New, Under Review, CA Assigned, Draft Ready, Filed). Click any row to open the Lead Drawer: download uploaded Form 16/docs, assign lead CA, update estimated tax refund, and log internal notes. Includes 1-click Export to CSV.

D. Tab 2: Paid Tools & Subscriptions Control

Monitors all digital tool orders with transaction ID, client details, amount, and payment mode. Admins can toggle access (active/revoked) or grant free tool licenses to any client manually.

E. Tab 3: Client Accounts Management

Lists registered user accounts, authentication providers (Email or Google OAuth), and active unlocked tools per user.

F. Tab 4: Consultation Leads CRM

Captures inquiries from contact forms and service pages. Track status from New to Contacted and Converted with internal sales notes.

G. Tab 5: WhatsApp Automation & Message Templates

Pre-configured templates with dynamic placeholders ({client_name}, {service}, {application_id}) for Welcome, Missing Docs, Draft Ready, and Filing Complete alerts.

H. Tab 6: Rates & Annual Pricing Engine

Allows instant adjustment of Union Budget tax rates, standard deductions, and base pricing across all 20 services without modifying code.

7. Technical Architecture, Security & Production Deployment

Frontend Framework:

Next.js 16.3.4 (App Router, Turbopack, React 19, Tailwind CSS v4)

Language & Typing:

TypeScript 5 (Strict Mode, 100% typechecked on production builds)

Database Architecture:

High-speed encrypted JSON store with automatic UTF-8 BOM sanitization (safeReadJSON)

Security & Privacy:

256-Bit SSL/TLS bank-grade encryption, DPDP Act 2023 compliance, public tracking data masking

Live Server & Hosting:

Hostinger Node.js Application / hPanel with Node.js v24 runtime

Continuous Delivery:

GitHub Repository: <https://github.com/MohammadHamza2518/tracconsultant> (branch: main)

Standalone Deploy Bundle:

hostinger-deploy.zip (~13 MB) pre-bundled with static chunks and zero external dependencies

SEO & Search Engine Index:

Dynamic sitemap.xml, robots.txt, Google Search Console verified, rich JSON-LD schemas
